

## FY2014 CHNA&HIP Progress Report

### Jones County

#### Community Health Improvement Plan

GOAL	Strategies	Progress on Strategies
Our goals in the past have been working with St. Luke's Family Planning in getting clinics in Jones County.	This has occurred with clinics in Anamosa and Monticello.	This is still ongoing and very successful. Working with IDPH STD division, and will be distributing 3,000 condoms into the county at different events such as our county fair. Will also put them in the county at different locations with signage provided by the IDPH.
